Contact

- Simple form that will look like it takes information (it does not work)

User enters name

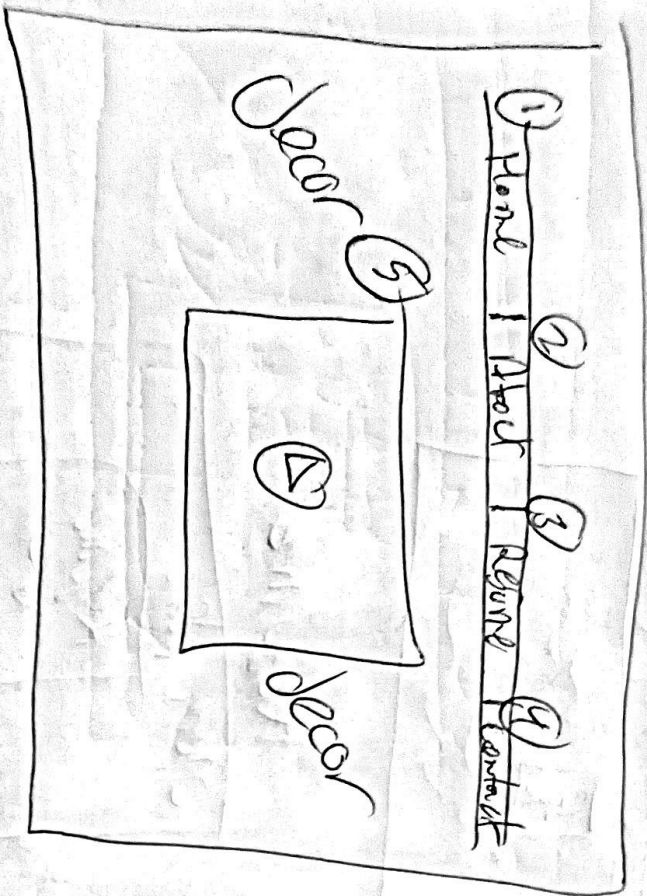

2 Email is entered

3 message is here

4 sends information to me

- If this ever works, I get the information in a word doc

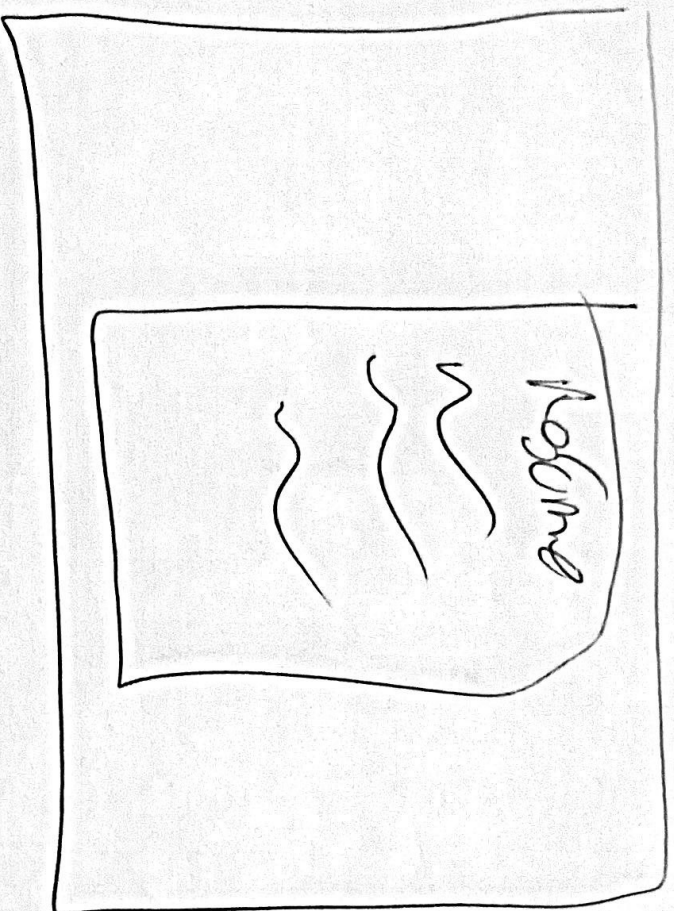

Home

- most interactivity
will just be navbar

- ① Takes you to home page
- ② About page
- ③ Resume page
- ④ Contact page
- ⑤ Video that welcomes to site

Resume
